

THREE HEAD MULTI BORING MACHINE - MZ7321*3

APPLICATION

Three Head Boring: Two rows of drills can be drilled in the vertical direction, and the Split motor can be adjusted Left and Right. One row of drill bits is drilled horizontally

FEATURES & TECHNICAL SPECIFICATIONS

- It is for dimensional accuracy.
- Sturdy structure.
- Corrosion and rust proof surface finish

Max. Drilling Diameter	Φ35mm
Max. Drilling Depth	70mm
Spindle Number	63pcs
Central Distance Between Spindle.	32mm
Spindle Speed	2840Rpm
Air Pressure	0.5 - 0.8Mpa
Outline Size	2800 x 2600 x 1650mm
Net Weight	1260kgs
