

LIPI MARKETING PVT. LTD.

MT- Manual Tool Changing CNC Router

# EM SERIES - MT

## STANDARD FEATURES

- 3.5 KW Air Cooling Spindle
- Servo Motor & Drives
- DSP Controlling System
- T-slot PVC Table (with Aluminum Profile)
- Helical Rack Pinion
- Taiwanese linear rail
- DELTA Inverter
- SCHNEIDER Electronic Spare Parts
- OMRON Switch
- Tool Sensor
- 3PH 380V 50HZ

## OPTIONAL

- Dust collect system: 3.0 KW Single bag / Double bags , 5.5 KW double bags
- Oil Mist cooling system
- Servo Motor & Driver system
- Italian HSD Spindle: 3.0 KW/ 4.5 KW/ 6.0 KW HSD
- Z axis Upgrade the Travelling Size to 250 / 300 / 400 mm

## TECHNICAL PARAMETER

| Model            | EM-1325MT                                | EM-1530MT        |
|------------------|--|------------------|
| Travelling size  | 300*2500*200 mm                          | 1500*3000*200 mm |
| Table Size       | 1230*2500 mm                             | 1560*3100 mm     |
| Transmission     | X/Y with Linear Guide, Z with Ball Screw |                  |
| Table Structure  | T-slot Vacuum                            |                  |
| Spindle Power    | 3.5 KW                                   |                  |
| Spindle Speed    | 0-18000 RPM                              |                  |
| Speed            | MAX Travelling speed : 25000 mm/min      |                  |
|                  | MAX Working speed : 15000 mm/min         |                  |
| Drive system     | Stepper / Servo Drivers and Motors       |                  |
| Working Voltage  | AC380V/3PH/50Hz                          |                  |
| Operating System | DSP                                      |                  |
| Net weight       | 1000kg                                   | 1250kg           |
| Gross weight     | 1050kg                                   | 1320kg           |

### Applications & Samples

Wood door products

Through - Carved work

Cutting

Relief
